

A close-up photograph of a metal tool, possibly a chisel or a similar implement, with a white square overlay in the center. The overlay contains the word 'BRANDT' embossed in a stylized, serif font. The letters are arranged in a grid: 'B' is at the top, 'R' and 'A' are in the middle row, and 'N' and 'D' are in the bottom row. The background is a dark, textured surface, likely the metal of the tool, with a vertical line of light reflecting off its surface.

# A Legacy of Elegance

After decades of experience as an interior designer, Julie Brandt's personal passion is to craft spaces that resonate with people emotionally and aesthetically. Growing up in an international design family, Julie gained her design and entrepreneurial skills through the inspiration and teachings of her parents, Margit and Erik Brandt, pioneers behind the Margit Brandt Design. The dynamic, visionary design duo put Danish fashion on the global map in the 70's, challenging conservative fashion trends and the status quo of earlier years. In this sense, Julie has a prevailing passion for design. She was the visionary co-founder of Rue Verte, one of Europe's first eclectic design houses fusing high-end fashion, lifestyle and interior design.

## JULIE BRANDT

BRANDT COLLECTIVE WAS FOUNDED BY INTERIOR DESIGNER JULIE BRANDT, REFLECTING HER EXTENSIVE EXPERIENCE AND LIFELONG PASSION FOR INTERIOR DESIGN AND DÉCOR AS AN INTEGRAL PART OF HER DNA.

# Nature Created It - We Refine It

Our design philosophy is grounded in creating tactile and emotional connections through the balance of dualities. By juxtaposing soft and hard shapes, raw and refined elements, we craft pieces that are both intriguing and harmonious. Our designs are delightful to touch, aiming to transform everyday interactions into meaningful experiences. With a profound attention to materials and proportions, our collections strip shapes down to their purest essence, eliminating excess to reveal the core of functionality and form. We prioritize natural materials and colors, meticulously selecting and curating each component to ensure the highest quality and authenticity.

# Our Design Philosophy

Our designs draw on an eclectic mix of influences, eras, and materials rooted in a Scandinavian sensibility with international appeal. Always guided by the perception that details make the difference. Hardware holds the power to transform the aesthetic of your kitchen or wardrobe, as a scent can alter your mood or awaken your memories, profoundly influencing your perception of a space. The intuitive tactility of a well-crafted object will stimulate your senses and enhance the ultimate feeling of an interior. Our collections strive to contribute to a warm and welcoming atmosphere that celebrates the innate beauty of natural materials, textures, and tonalities.

Each collection, inspired by different typologies, exhibits architectonic and biophilic qualities. Focusing on hardware as functional jewelry for interiors, these collections blend timeless simplicity with distinctive character.

# Transcending Generations

At Brandt Collective, we concentrate on the inherent beauty of nature, selecting each material for its unique character, color, surface, and texture. We value materials that age gracefully over time, adding authenticity and originality to any interior. Our focus is on quality craftsmanship that transcends generations, to create timeless objects that you will want to covet forever. Sustainability is at our core, reflected in our choice of partners committed to responsible production and material use.
